

LABOUNTY®

2025 PRODUCT CATALOG

Selection, Innovation, Performance

The leader in mobile shears
and the most expansive
assortment of demolition
attachments in North America

YOUR TRUSTED PARTNER IN THE SCRAP AND DEMOLITION INDUSTRY

LaBounty has supplied the most reliable shear and demolition attachments to the market since 1973. When LaBounty invented the mobile shear in 1977, it drastically improved metal and concrete processing and transformed an entire industry.

With business output and efficiency top of mind, LaBounty continues to deliver mechanical and digital innovations that put customers at the forefront of productivity. Backed by one of the industry's best warranties and a world-class service and support team, users can spend time focusing on what matters most: because we know it's what's on the ground at the end of the day that counts.

80+ DEALERS GLOBALLY

**50+ YEARS IN SCRAP
& DEMOLITION INDUSTRY**

**WORLD CLASS
PRODUCT SUPPORT**

LABOUNTY PRODUCT SUPPORT

When you buy a LaBounty attachment you become part of an exclusive group of strategic partners. We take pride in backing up our world-class products with the industry's most technologically advanced support team.

- In order to quickly respond to your installation, service and parts requirements our dedicated factory support team is available by phone at **833-723-1843** or email at **Labountyparts@sbdinc.com**.
- When you need on-site support our team of field service technicians are strategically placed in the United States to respond to your technical support and training requests.
- For deeper product training, we offer LaBounty training upon request and can cater to your needs. Please contact your LaBounty rep for more information.

Bolt-on Guards Available for Many Excavator Makes/Models

FRONT WINDOW GUARD

- Guards bolt to existing mounting locations on cab
- Full-size (12MT and up) guards tip out for cleaning
- Select screen guards tested to ISO 10262:1998
- Screen and polycarbonate inserts are interchangeable/replaceable
- Painted flat black to minimize glare
- Install time: <1 hour

BAR STYLE

SCREEN STYLE

POLYCARBONATE

Guard Type	Weight	Description	Application
Screen	Full Size: ≈ 110 lbs Mini-ex: ≈ 40 lbs	Laser-cut 3/16" steel with 1.88" square openings	General Purpose
1/2" Polycarbonate	Full Size: ≈ 130 lbs Mini-ex: ≈ 40 lbs	Mar/UV-resistant LEXAN MR-10 equivalent	Breaker, Land Management
Vertical Bars	Full Size: ≈ 110 lbs	1/4" steel bars	Demolition, Scrap, Forestry

TOP GUARD

- Select guards tested to ISO 10262:1998
- Bolts to existing mounting locations on cab
- Includes provisions for mounting work lights
- Accommodates telematics antennas
- Install time: ≈ 1 hour
- Weight: ≈ 200 lbs

LEGEND SERIES

A NEW LEGEND - FORGED IN INNOVATION

The objective was simple: reduce maintenance and boost productivity. As a result, productivity and uptime were optimized. LaBounty® shears have demonstrated their effectiveness in scrap metal processing, bridge deconstruction, and industrial demolition for many years. The Legend Series Mobile shear include the industry's exclusive fully protected and indexable mobile shear tip - the Dual Max™ piercing tip

*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

** Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

****Legacy B-Series, not Saber Series Shear.

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

DESTROYER™ SERIES

MEETING THE TOUGH DEMANDS OF DEMOLITION AND SHIP BREAKING

Built for the harshest jobs, LaBounty's Destroyer Class Shear boasts integrated reinforcement and superior protection to minimize down-time and maximize productivity. Not only stronger, the Destroyer can take on bigger jobs so you can put more on the ground.

BLADE KITS

**Get The Highest Quality Blade Kits For Your
LaBounty® Mobile Shears**

LABOUNTY PREMIUM

LaBounty Premium blades have been designed and time tested in an entire spectrum of applications; resulting in the perfect materials and heat treatments to insure you put more scrap on the ground year after year. Our Premium blades are available for all models of LaBounty's MSD Legend, Saber, and Destroyer Series Shears.

Saber Series Blades

Legend Series Blade Kit

Ni LABOUNTY HIGH NICKEL

For maximum blade edge life, and less downtime for maintenance, turn to LaBounty's Ni blades which contain a 4% Nickel content. Our high Nickel primary and secondary blades are available for most models of LaBounty's MSD Legend, Saber, and Destroyer Series Shears.

DEMOLITION ATTACHMENTS

UNIVERSAL PROCESSORS

THE ULTIMATE MULTI-TASK TOOL

The next generation of award winning universal processors feature the industry's best power-to-weight ratio for uncompromising power, control, and versatility. These universal processors have multiple jaw set options which allows processing of a wide range of materials using a single tool.

JAW TYPES

CHOOSING THE RIGHT JAW

CONCRETE CRACKING JAW - CC

CC JAW

Effectively breaks large, oversized concrete structures such as abutments and beams, making it ideal for primary demolition tasks. The entire jaw is constructed with high-grade, abrasion-resistant steel. Swift Lock teeth have been improved to enable quick changeover and reduce downtime, and are interchangeable with other LaBounty attachments. Additionally, it features rebar cutting blades in the throat.

NOTE: The UPX950 Concrete Cracking jaw is designed without Swift Lock Teeth and instead features weld-in replaceable teeth.

UPX 450 WITH CONCRETE CRACKING JAWS

CONCRETE PULVERIZER JAW - CP

CP JAW

Ideal for demolishing concrete and segregating rebar with utmost efficiency. Its Swift Lock teeth have been enhanced to enable swift transitions and minimize unproductive periods, and are interchangeable with other LaBounty attachments. The jaw is constructed from top-notch, abrasion-resistant steel, and features rebar cutting blades located in the throat for added convenience.

NOTE: The UPX950 and UPX750 Concrete Cracking jaw are designed with weld-in replaceable teeth, which eliminates the need for Swift Lock Teeth. However, the UPX450 CC jaw, being the largest, features Swift Lock Teeth.

UPX 950 WITH CONCRETE PULVERIZER JAWS

SHEAR JAW - SH

SH JAW

Capable of severing rebar and structural steel, such as I-beams, H-beams, pipes, and more. Its pivot components have been upgraded for greater longevity, while its patented cutting blade system offers superior performance and lessens the need for maintenance.

[CLICK HERE TO WATCH VIDEO OF UPX JAW SWAP](#)

UPX 450 WITH SHEAR JAWS

MOBILE ROTATING PULVERIZERS

PULVERIZE WITH POWER & SPEED

The MRP is a versatile tool that enables users to handle primary and secondary demolition projects with ease. With a short center of gravity and 360-degree rotation, it offers optimal maneuverability, while the jaw's design facilitates improved penetration and rapid material downsizing. Dual rotation motors provide superior holding power and durability, and replaceable wear areas encourage longevity and reduced maintenance.

MOBILE DEMOLITION PROCESSORS

PROVEN CRUSHING & CRACKING POWER

The LaBounty Mobile Demolition Processors (MDP) is a highly powerful attachment for crushing and processing concrete in both primary and secondary demolition. The MDP provides **unmatched power-to-weight** for crushing the hardest concrete with smaller excavators, as compared to the competition. With patented Swift Lock Teeth makes maintenance quick and easy, and are interchangeable with other LaBounty attachments. The MDP design is based on the time-tested LaBounty shear and carries forward the legendary performance and durability that only LaBounty can deliver.

MOBILE HYDRAULIC PULVERIZERS

MAXIMUM CRUSHING POWER

Engineered for maximum efficiency in secondary demolition and concrete recycling, the LaBounty Mobile Hydraulic Pulverizers (MHP) deliver an industry-leading power-to-weight ratio and impressive jaw capacities. The innovative MHP design has been refined to enhance performance, enabling quicker pick-up, crushing, and rebar separation from concrete. This is achieved through high-tip forces, expansive jaws, and rapid cycle times.

Model	Service Weight**		Height		Jaw Opening		Jaw Depth		Upper Width		Lower Width		Carrier Weight Range*

** Attachment with average-sized adapter plate

LaBounty reserves the right to improve, update, or change the product specifications, appearance, or functional attributes without notice.

CONCRETE PULVERIZERS

SMART INVESTMENT, PROVEN RESULTS

The Concrete Pulverizers (CP) design efficiency uses existing excavator hydraulics for maximum crushing power with minimal investment. Providing controlled demolition and recycling of concrete bridge decks, walls, floor slabs, foundations, silos, culverts, pillars, encased beams, pre-cast structures, and railings.

- CPs feature custom lever arms to provide maximum crushing power.
- CPs use existing excavator hydraulics – no additional circuits are required. A movable front jaw, actuated by the excavator's bucket cylinder, closes into the stationary back jaw. The back jaw is pinned in place with a position arm which is pinned to a mounting pad welded on the lower surface of the excavator's stick.
- 100% welds around heavy torque tubes to minimize torsional stresses.
- Swift Lock Pin on replaceable tooth system are standard on all CP models.

**SECONDARY

HYDRAULIC BREAKERS

HARD HITTING RELIABILITY

The LaBounty® breaker line is purposefully designed to withstand the most demanding applications for all-day, everyday use. With the latest technologies and heavy-duty housing designs standard on most models, these breakers are destined to become the preferred choice for primary and secondary demolition, trenching, tunneling, and oversized breaking.

* Weights apply to standard carriers only. Any variances must be agreed with LaBounty and/or the carrier manufacturer prior to attachment.

** Breaker and breaker box with standard adapter plus working tool.

*** Sound power level guaranteed. Important: EN ISO 3744 in accordance with directive 2000/14/EC. Full details of measurement are available in the Safety and Operating instruction of the product. It can be found on www.podshop.se/epiroc

HYDRAULIC BREAKERS

FEATURES & BENEFITS

- **Hybrid technology** - The combined gas/oil working principle of the LMB breakers ensures the optimum transmission of energy from the piston to the working tool to deliver the best possible efficiency and high-impact energy.
- **VibroSilenced Plus** - Minimizes recoil forces for less strain on the carrier, operator and breaker. All LMB breakers deliver sound power levels among the lowest in the market.
- **Advanced control technology** - The integrated control valve optimizes efficiency; the EnergyRecovery system increases operating efficiency and lowers vibrations.
- **Monoblock design** - Combined cylinder & tool holder section eliminating the need for tie rods for higher reliability; replaceable piston liner for cost-effective repairs.
- **Percussion chamber ventilation** - Prolongs the lifetime of seals, bushing, and tool steel.
- **StrokeControl valve** - The combined stroke length and start-up mode switching valve enables the operator to adjust the breaker operation mode to the application for optimum performance.
- **ContiLube™ II** - Standard on LMB 90 - LMB 180 self-bleeding automatic lubrication device for optimized grease consumption and continuous lubrication.
- **Field replaceable bushing*** - Full length floating tool bushing for quick exchange with standard hand tools.
- **HATCON™ – a new level of control** - HATCON™ enables next level fleet management by monitoring operating hours, location and service intervals of your tools. HATCON™ is available factory mounted or as a retrofit kit.

*Only on the LMB 40 - LMB 80

MATERIAL HANDLING

MOBILE DEMOLITION GRAPPLES

HANDLE, SORT & LOAD WITH PRECISION

The Mobile Demolition Grapple (MDG) is the ultimate tool for demolition, material handling, sorting, and loading. The continuous 360° high-torque rotation and synchronized jaw design combine to provide **enhanced material control**.

WASTE

* Weight excludes excavator mounting bracket.

**Capacity will vary depending on the make up of the material being handled.

*** Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.

CONTRACTOR GRAPPLES

THE ORIGINAL AND STILL THE BEST

With a proven design and a new mounting geometry, Universal HDR Grapples have been engineered to withstand rough usage and it's enhanced design includes a two-tine moveable upper half and a stationary lower half with three-tines. As the industry's go-to workhorse for more than 50 years, the HDR Series Contractor Grapples are still Made in the USA with global materials. This grapple is remarkably versatile, making it the preferred choice for various applications, from residential/commercial demolition and land clearing to scrap, rock, and waste handling.

SELECTION. INNOVATION. PERFORMANCE.

Founded in 1973 by Roy LaBounty in Two Harbors, Minnesota to provide specialty excavator attachments to the scrap and demolition markets.

Purchased in 1992 by The Stanley Works (now Stanley Black & Decker) to compliment a line of demolition attachments in the Stanley Hydraulic Tools business (now Stanley Infrastructure).
