\*Weight includes standard excavator mounting bracket. Attachment weight may vary depending on mounting configuration as well as options.

\*\* Reach is measured from the attachment mounting pivot (boom or stick) forward to the end of the jaw.

\*\*\* Excavator weight range is a guide only. 2nd member configurations at or near min/max excavator weight and all 3rd member configurations must be preapproved by LaBounty. Quick couplers, short swing machines, long arms all impact carrier size recommendation.
